Dear Merilee:

Thank you for initiating this coordination. To confirm, I received a voice mail from Kim in your Corporate Office, relative to determining available conferencing options. Barb Butler is following up with Kim to work out the connection with our facility here in Cincinnati. I am hopeful that we can conduct a trial run in advance, so that we can avoid trouble-shooting the day of the meeting. Barb Butler and Alice Gilliland will participate remotely from Cincinnati.

We have asked Michael Overbay (USEPA, Dallas, TX) to participate by phone on Thursday. Michael is acting as a technical consultant to ORD to help provide continuity for mine and Barb's transition into the lead on developing Prospective Case Studies. Michael has been involved in earlier technical discussions to assist in identifying potential study site locations.

Finally, I will be able to attend the meeting in person. I will drive to the Pittsburgh area early Thursday morning.

Again, thanks for your assistance in arranging this meeting.  
Please feel free to contact me if you have any questions.

Sincerely,  
Robert Ford

I have left messages with our Ft. Worth office to work with you in setting up a video link. Are you the person they need to talk to or someone in your IT department?
